EDUCATION

Arizona State University, W. P. Carey School of Business

B.S. in Economics & Finance (Dual Major) | GPA: 3.47 | Dean's List

Tempe, AZ

Expected March 2028

- Relevant Coursework: Managerial Accounting, Microeconomics, Macroeconomics, Business Statistics, Business Calculus, Introduction to Programming.

PROFESSIONAL EXPERIENCE

Arizona State University, Department of Psychology

Office Assistant

Tempe, AZ

March 2026 – May 2026

- Processed financial documentation and expense reports in Workday, ensuring accuracy across departmental reimbursement records.
- Managed front-desk operations including call handling, scheduling, mail distribution, and maintenance of confidential departmental records.
- Supported faculty and staff with inventory tracking, data entry, and ad hoc administrative projects.

Arizona State University, Facilities Development & Management

Maintenance & Operations Office Assistant

Tempe, AZ

March 2026 – Present

- Maintained data integrity across work orders and asset records in TMA facilities management software during evening shift operations.
- Handled inbound calls and service requests, routing issues to appropriate teams and ensuring timely follow-up on open tickets.

ESSE Trading Impex LLP

Office Aide

May 2024 – August 2024

- Tracked purchase orders and supplier shipments in Microsoft Excel; reconciled invoices to POs and flagged pricing discrepancies for finance review.
- Prepared weekly order-processing and shipment-tracking reports used to support inventory and operations decisions.
- Coordinated agendas and logistics for cross-departmental meetings between procurement, logistics, and finance teams.

InnoLearn Solutions Pvt Ltd

Finance Intern

May 2023 – June 2023

- Assisted finance team with organizing financial records, supporting data analysis, and preparing documentation for internal review cycles.
- Built and maintained a user-records database in Excel using Pivot Tables, VLOOKUP, and advanced formulas to track key performance metrics.
- Designed Gmail automation workflows to streamline team communication and reduce manual follow-up overhead.

PROJECTS

Vaelor – AI Trading & Investment Platform

2026

- Designed, built, and deployed a full-stack multi-user paper-trading and portfolio analytics platform (Next.js 14, TypeScript, Tailwind, Neon PostgreSQL, Vercel) with real-time market data via Yahoo Finance, ML-driven buy/sell signals, smart stop-loss logic, an integrated backtesting engine, sector-allocation analytics, watchlist/screener tools, JWT-authenticated client portal with bcrypt password hashing, and an admin console.

Target Corporation – Discounted Cash Flow Valuation Model

Independent Project

- Built a full Excel operating model with 5-year income statement projections, unlevered free cash flow buildup, WACC calculation, and terminal value under both Gordon Growth and exit multiple methodologies.
- Ran sensitivity and scenario analysis on WACC and terminal growth rate assumptions to stress-test valuation outputs and derive an implied share price range.

LEADERSHIP & ACTIVITIES

Model United Nations, Alpha Urbane Project

Representative of Luxembourg

09/2019 – 10/2019

- Drafted and presented position papers and resolutions; negotiated with international delegates and delivered formal speeches to the assembly.
